07 Remuneration and other benefits we receive

We receive brokerage, ongoing commissions, fees and charges for transactions conducted on trading accounts. The fees we charge you are set out in this FSG.

Where any amount of remuneration (including commission) or other benefits referred to in this section 7 is not able to be ascertained as at the date of this FSG, you may contact us to request particulars of the remuneration (including commission) or other benefits. Your request for particulars must be made within a reasonable time after you receive this FSG and before we provide you with any of the financial services referred to in this FSG.

If you trade with CMC Markets Stockbroking through an introducing adviser or referrer, that introducing adviser or referrer may have its own schedule of fees. Refer to your introducing adviser or referrer's financial services guide, website or contact your introducing adviser or referrer for further information. In those circumstances, if there are differences in the introducing adviser or referrer's fees for a particular service, the introducing adviser or referrer's fees will apply, not the fees for the service outlined in this section 7 (to the extent fees in relation to those services are provided in this FSG).

7.1 Commissions on investments in financial products issued by others

We are remunerated through the fees we charge you. With certain financial products, we are also remunerated by product issuers through commissions paid to us.

Initial commissions are a one-off payment and are calculated as a percentage of the funds you have invested. They are deducted from the amount invested. Initial commissions range from 0% to 6.5% (including GST) of your investment amount.

In certain cases where you apply for securities in a new issue, IPO or float we may receive fees from the issuer. All such fees associated with the issue will be disclosed in the product disclosure statement or prospectus for the issue. These fees vary but will typically range from between 1% to 5% (including GST) of the amount raised. Unless otherwise agreed by us in advance you are not entitled to any of these fees.

Ongoing commissions (also known as trailing commission) are paid for the length of time you hold the financial product. They are usually paid directly to us by the product issuer out of the revenue the product issuer earns. In some cases they may be deducted from your investment. Ongoing commissions range from 0% to 3% (including GST) of your investment amount.
